Career Objective

Passionate software developer eager to contribute to innovative projects and continuously grow professionally. Open to working with diverse frontend and backend technologies and committed to learning new tools and frameworks to deliver high-quality solutions.

Education

Bachelor of Science in Computer Engineering

Suleyman Demirel University, Isparta, Turkey

Anticipated Graduation: August 2025

Work Experience

Hardware Intern

Etiya, Ankara

<https://www.etiya.com/tr>

June 2024 – August 2024

Supported assembly, testing, and troubleshooting of server hardware and IT infrastructure components.

Collaborated with the team to ensure system reliability and performance.

Gained practical experience in hardware diagnostics and integration within a corporate IT environment.

Mentor, Kodluyoruz – Remote

January 2024 – January 2025

<https://www.kodluyoruz.org>

Mentored aspiring developers on frontend challenges, providing guidance on HTML, CSS, JavaScript, and code reviews.

Mobile Game Development Intern

2Kek Games, Balıkesir Teknokent

<https://2kekgames.com>

June 2023 – August 2023

Contributed to mobile game features and improved user experience through bug fixes and teamwork.

Technical Support Agent

Teleperformance for Monster Notebook, Remote

<https://www.tp.com/en-us/>

March 2020 – September 2020

Provided technical support and troubleshooting specifically for Monster Notebook products. Diagnosed issues and resolved customer inquiries efficiently.
